

RAMP KIT KIT DE RAMPE KIT DE RAMPA

700 lbs
GROSS WEIGHT PER RAMP

317 kg
POIDS BRUT PAR RAMPE
PESO BRUTO POR RAMPA

Easy to Assemble

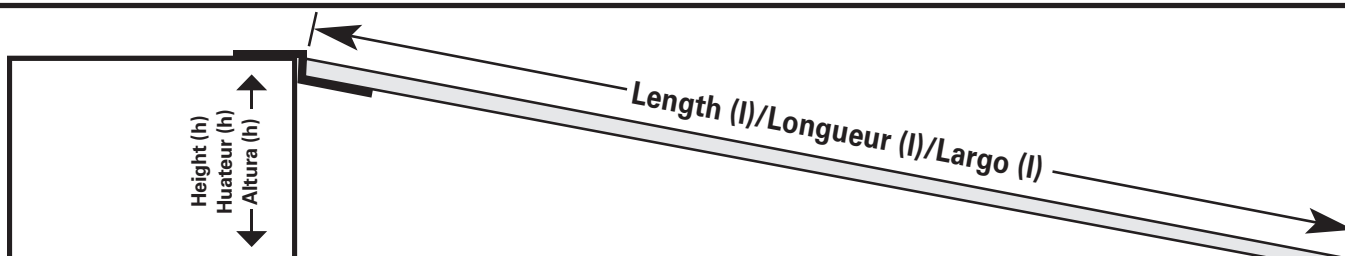

1. Simply drill two holes in your 2" x 8" wood plank (not included).
2. Attach extruded steel ramp tops to your wooden planks using hardware included.
3. Complete instructions included inside box.

Plank Selection

You must use "construction grade" Douglas Fir or Southern Yellow Pine planks.
Select planks with minimal number and size knots. For additional strength, use oak planks.

To Determine Proper Plank Length See Chart:

Ramp height higher than 3 feet is considered dangerous.

Recommended Range Gamme d'utilisation recommandée Gama Recomendada

HEIGHT (h)	LENGTH (l)	HAUTEUR (h) ALTURA (h)	LONGUEUR (l) LARGO (l)
1'-0"	3'-10"	30,48 cm	116,84 cm
1'-2"	4'-6"	35,56 cm	137,16 cm
